Sustaining Progress Through Chapter 257 Investments

Investments in Chapter 257 (1599-6903) have made a **meaningful difference**—helping to strengthen wages and support the stability of human services across the Commonwealth. While workforce vacancy rates among ADDP's human service provider members remained higher than the overall Massachusetts labor market, they showed steady improvement, declining from **24% in 2023** to **15% in 2025**.

Continued investment in the Chapter 257 Rate Reserve **helps sustain this progress**, supports the **53rd percentile** of Bureau of Labor Statistics benchmarks used in rate setting, and ensures that rate implementation does not fall below the wage percentile used in the prior rate cycle.
