💡 Did you Know?

November Is National Family Caregivers Month

November is National Family Caregivers Month, a time to recognize those who help individuals with disabilities live full, meaningful lives in their homes and communities. Nationwide, **63 million Americans**—**nearly one in four adults**—**provide ongoing care to someone with a medical condition or disability**. In Massachusetts, **Adult Foster Care (AFC)** supports nearly 30,000 older adults and adults with **disabilities**, enabling them to remain at home with caregivers of their choosing. **AFC promotes independence, dignity, and self-determination. Sustained funding is essential to ensuring these community-based supports remain strong and accessible.** ADDP proudly advocates for these vital programs and the caregivers who make them possible.
